hungry wildcats

eat on campus

Save money every day with your University of Arizona meal plan.

Wildcat Meal Plans

Wildcat Meal Plans are specifically designed for students living on-campus. With these plans, you never pay state sales tax, and you also receive 5% off each purchase.

With the **Wildcat Gold Meal Plan** you commit to spending $3,500 for the academic year (no state tax.) This plan is designed for students who eat 3 meals a day.

With the **Wildcat Silver Meal Plan** you commit to spending $3,000 for the academic year (no state tax.) This plan is designed for students who eat 2 meals a day.

With the **Wildcat Copper Meal Plan** you commit to spending $2,500 for the academic year (no state tax.) This plan is designed for students who eat 1 meal a day.

- All Wildcat Meal Plans remaining balance at the end of the Spring semester, automatically rolls over, so you never forfeit any dollars.
- All subsequent deposits require a $25 minimum.

* A non-refundable $35 processing fee for online applications or a $50 processing fee for paper applications is added to all Meal Plans.

Commuter Plan

The **Commuter Plan** is created for students living off-campus, in fraternities or sororities, or who only eat on campus occasionally. In addition to the convenience, you save by not paying state sales tax.

- Initial minimum deposit is $250. Processing fee applies*.
- All subsequent deposits require a $25 minimum.

How do I pay for meals?

Use your CatCard-linked Meal Plan to quickly and conveniently pay for meals anywhere on campus.

Every time you swipe your CatCard at a campus restaurant, you save immediately by not paying any state sales tax.

UA Meal Plans are a debit account, so if you lose your CatCard, report it to the Meal Plan office immediately at: 1-800-374-7379.

When you purchase or add funds to a UA Meal Plan, you can charge your Bursar’s account, use a credit card, check or money order, and you’ll receive all the same benefits.

Budget Instructions

1. Estimate the cost of the type of meal you eat in a typical week. (Ex: You eat lunch 5 days per week. Enter “5” in the “lunch” row, and multiply by $7.00 for the total weekly lunch cost. Do the same for the other meals.)

2. Add each weekly meal cost to get your total weekly cost.

3. Multiply your total weekly cost by 32 – the number of weeks in a school year.

4. Use this estimate to choose the best meal plan option for you.
